

Occasional Invaders

8:00am – 8:55am

In this session, Heather will provide a complete overview, biology, and life history of occasional invaders. These pests include Asian Lady Beetles, Stink Bugs, Seed Bugs, Boxelder Bugs, and non-insect Arthropods. She will then discuss ways to manage such pests.

Presented By: Heather Alonso, Target Specialty Products

Heather King Alonso is a Board-Certified Entomologist with more than 15 years of experience in the Pest Management Industry. She graduated from Clemson University in 2004 and has held various positions in the industry mainly focused on technical training.
